

Halifax District FEHA Board of Directors Meeting October 5, 2006 – Enterprise Environmental Health Office

The meeting was called to order at 5:00 PM by Chairperson Eric Maday.

Roll call was taken:

Chairperson: Eric Maday
Chairperson Elect: Kurt Jennings
Past Chairperson: Scott Chambers
Secretary: Ginger Hancock

Also in attendance was Albert Royster.

This meeting is held to discuss the one or two day course that Albert Royster has been working so hard on. Albert has suggested that the tentative dates be set for August 2nd and 3rd of 2007. Possible locations for the course were discussed as being held at the Hilton in Daytona or at the Ocean Center in Daytona.

Incorporating training classes that utility and wastewater operators can earn credit for is also a possibility. Cost for the course has not yet been decided upon as well as if there will be an evening activity after the first day's presentation.

Key items that we need a cost estimate on will be for any refreshments to be served, such as a buffet, and whether we will accommodate a key note speaker. Eric Maday will look into how to become a utility personnel course provider.

At the end of the meeting a vote was held for location of this course and the majority voted for the Hilton.

The meeting adjourned at 5:55 PM
